Professional Summary

Full Stack Developer with hands-on experience in building and deploying web applications using React.js, JavaScript, TypeScript, Spring Boot, and MySQL. Skilled in developing responsive user interfaces, RESTful APIs, authentication systems, and database-driven applications. Strong understanding of frontend development, API integration, state management, object-oriented programming, and software development best practices.

Technical Skills

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux

Backend: Java, Spring Boot, RESTful APIs, JDBC

Database: MySQL, Firebase

Tools: Git, GitHub, Postman, VS Code, Netlify

Concepts: CRUD Operations, API Integration, Authentication, Authorization, Role-Based Access Control (RBAC), Responsive Design, MVC Architecture, Object-Oriented Programming (OOP)

Projects

CiniHub (Movie Discovery Platform)

React.js, Redux, Tailwind CSS

- Created a responsive movie discovery application using React.js and Redux.
- Integrated OMDb API to fetch movie ratings, cast information, and movie details.
- Optimized search functionality and state management for improved user experience.
- Live Demo: cinihub.netlify.app

Employee Management System

React.js, Spring Boot, MySQL

- Built a full-stack employee management system with Admin and Employee portals.
- Engineered RESTful APIs using Spring Boot and MySQL.
- Implemented Role-Based Access Control (RBAC) for secure access management.
- Integrated React frontend with Spring Boot backend and MySQL database.
- Live Demo: [github.com/Employee Management System](https://github.com/Employee-Management-System)

RepoPulse (GitHub Issue Tracker Dashboard)

React.js, TypeScript

- Built a real-time GitHub issue tracking dashboard using React.js and TypeScript.
- Integrated GitHub REST API with OAuth authentication and issue filtering.
- Added loading states and error handling to improve user experience.
- Live Demo: repopulz.netlify.app/workspace

Open Source Contributions

RDFS – VS Code Extension for React Developers

JavaScript, VS Code Extension API

- Created and published a VS Code extension for React project navigation.
- Supports Vite, Create React App, and Next.js project structures.
- Improved developer productivity by reducing project file clutter.

Certifications

Java Full Stack Development Certification (Java, Spring Boot, React.js, MySQL, RESTful APIs)

Education

B.E. Computer Science and Engineering, Bannari Amman Institute of Technology
Higher Secondary Certificate (HSC)

CGPA: 7.02 / 10
85
